25X1A6a

1. In following up on my discussions, I wish to clarify any misunderstandings which may have resulted from my expressed desire of having functions combined where ever possible. The following is for your guidance:

25X1A2d1

a. AECOM has placed upon Chief, KUCLES the responsibility for direct and rapid staff and operational communications support. Frequently this is in response to high priority projects calling for immediate action on the part of the KUCLES field element concerned. In order to accomplish this as well as its more routine functions effectively, KUCLES must have jurisdictional control over the operation of forward depots.

b. Additionally, KUCLES is responsible for controlling the test, inspection, stock levels and issuance of communications equipment. Therefore, KUCLES must maintain appropriate control records.

3. I believe the above to be in the best interests of the Organization particularly if, whenever practicable, it can be suggested by the use of a common-labor force, service group and the expansion of the control records to serve as the accountable record.

25X1A6a

4. I was gratified to read and to note the agreement regarding certain changes at [redacted] I approve the implementation of the changes recommended in [redacted] if upon review they are still agreed as desirable. I believe that further changes in the [redacted] material support functions are not required at this time.
